Sandspruit River update!!

Sunninghill Community have now almost completed our clearing and re-habilitating of the Sandspruit River between Sunninghill and Paulshof. We are now about to enter a new phase in this project and that is the monthly maintenance of the work we have done and our vision of turning this area in one which our residents can enjoy as a public open space.

BEFORE

AFTER

Our vision for the completed project:

To achieve this we call on residents and businesses to come forward and assist us with donations towards the monthly maintenance and installation of picnic areas and walking and cycle tracks. For companies willing to assist there will be advertising opportunities. To contribute to this worthwhile project please contact Kerry Mawson at Sunninghill Community on suncommunity@iafrica.com

Picture taken by Lauren Hegele of the Rivonia Stables of a visitor to the Sandspruit recently

Well done to Chilli Lane for donating vegetables grown at the centre to the Riverside Manor frail care centre every week.

The Sunninghill Community Ratepayers needs some brush cutters!

With the monthly maintenance of the Sandspruit River becoming a reality and the fact that we have been informed that Province does not have a budget for grass cutting (***you have all noticed how overgrown the K60 has become***) Sunninghill Community is looking to increase the number of industrial brush cutters we have (we have 2 at present) so that we can tackle these problems ourselves as they occur. If you are able to donate an industrial brush cutter or are willing to sponsor one (they cost around R4 750 incl) please contact our office – suncommunity@iafrica.com

Crimes committed in Shopping Centres

Sunninghill's crime statistics have been steadily dropping over the past few years; however the crimes that continue to haunt us are those of theft of motor vehicles and theft out of motor vehicles 90% of which occur in shopping centres. As with many crimes if motorists heeded the many warnings published in the press and local newsletters these crimes would no longer exist. The crime that appears on the top of the list of crime stats is theft out of motor vehicle where remote blocking/jamming devices are used. *The scam works as follows, when a person leaves the vehicle and pushes the remote to activate the vehicles locking system a criminal pushes a remote at the same time effectively blocking the signal of the locking remote. You think your car is locked but it is not! Take care more and more insurance companies do not cover these losses.* **In order to avoid becoming a victim of this crime never push the remote locking whilst walking away from the vehicle and check that the vehicle is locked by testing the door before walking away**

In Sunninghill the shopping centre were you are least likely to be a victim of crime is the **Sunninghill Village Shopping centre** and this is not only due to the fact that they have good cameras and security infrastructure but a Security Manager who continues to impress Sunninghill Community Security time after time. Any criminal visiting this shopping centre is taking a huge risk as Mr Moholo is everywhere all the time and has personally been responsible for not only stopping crime from taking place but has been responsible for the arrest of a number of criminals who have unsuccessfully tried their luck here. Mr Moholo Sunninghill Community Security applauds you!!

DUMPING ON WITKOPPEN ROAD WILL SOON BE A THING OF THE PAST!!!

Greg Nathan of **Showday.co.za** has come to the rescue and is busy negotiating with Sunninghill Community to not only clear away the existing rubble here but to "bollard" off the entire area preventing trucks from illegally dumping their rubble. We are very excited about this project and will be featuring this story extensively in our next Focus on Sunninghill

I travel to you providing the following services for your dogs: - Brush out coat to remove excess hair - Clean ears & clip nails - Professional grooming - Supply dog toys I am a dog trainer and have completed the Advanced Canine Behaviour Course at Ethology Academy. I believe in taking the time and using positive reinforcement techniques to make the grooming experience enjoyable for your pet. Call or email me for an appointment.
